How It Works

Click Vibes is a Paid to Click (PTC) program, meaning that members will join the program and get paid for each advertisement they click or read. Advertisements will come from advertisers who also join the program and purchase advertising credits to promote their ads in different ways. The Click Vibes program, runs on the popular Aurora GPT (get paid to) script.

The Ads

Advertisers will purchase different forms of advertising credits for their ads, these are:

1. **Banner Ads** – One banner is selected randomly from our database and displayed at the top of our website page. A new banner is selected each time a new page is loaded. These banners are pictures that are usually 468 pixels wide by 60 pixels high and when clicked, will load the website it promotes. Members do not get paid to click these banners.
2. **Exchange Links** – Click a link and the surf engine will load the website being promoted. A timer is displayed on the top of each page and when the timer runs out this enables the member to click a link which will load a new website. Members do not get paid to view these ads, rather, for each 3 ads they view they get 2 Exchange link credits to promote their websites in our surf engine, hence the term Exchange Links.
3. **Paid to Read Emails** – Read emails sent to you and view websites for cash and points. Members will open this email in their inbox, read an ad written from the advertiser, and then click a link within that email which will open the promoted website with a timer on top of the page. When the time runs out, the member will click a link to be credited payment for viewing the page.
4. **Paid to Read Ads** – Read advertisements written by the advertiser prior to clicking a link that opens up the promoted website with a timer on top of the page. When the timer runs out, the member will click a link to be credited payment for viewing the page.
5. **Paid to Click Ads** - Click links and views the websites in an assigned time to earn cash and points, you can chose to view these ads individually, or to surf them in our surf engine. This option can be selected by clicking a 'Surf these ads' button at the top of the 'Earnings Area'.

6. **Featured Banner Ads** - One banner is selected randomly from our database and displayed at the bottom in the left menu of our website page. A new banner is selected each time a new page is loaded. These banners are pictures that are usually up to 125 pixels wide by up to 125 pixels high, and when clicked, will load the website it promotes. Members do not get paid to click these banners.
7. **Featured Ads** – These are short text ads selected randomly from our database and displayed at the top of the left menu of our website page. A new ad is selected each time a new page is loaded. These ads are texts usually of up to 60 characters, and when clicked, will load the website it promotes. Members do not get paid to click these ads.
8. **Featured Links** - These are simply the names of websites selected randomly from our database and displayed at the top of the left menu below the Featured ad. You may see these scrolling horizontally and highlighted in different colors chosen by the advertiser. A new ad is selected each time a new page is loaded. These ads when clicked, will load the website it promotes. Members do not get paid to click these ads.
9. **Paid to Signup** – You can place a link to your website here and assign a cash value to it to reward a member if they signup in your program. The member, after completing the signup process in your program, will place their confirmation email here as proof and then they will be credited the payment after you accept their signup request.

The 'My Account' menu

This menu is visible only after a member has signed in to the website.

1. **Account** – This is your profile, here you can change your password and change your email address.
2. **Preferences** – This is where you turn on or off the options to receive paid emails to your email address on file. You can also turn on your instant message and ad alerts here. By default, these alerts are set to off so you must turn them on to receive your paid emails and alerts.
3. **Withdraw** – Click Vibes has a low payout of U\$1 for Premium members and \$3 for free members. When a member has accumulated the amount appropriate to their membership, they may withdraw their cash here. A green dot indicates which method you can chose for payout. A red dot signifies that you do not qualify for that payout method or that you do not have sufficient funds to request payout.
4. **Stats** – This is a summary of your account. It shows your cash balance, how much credit you have available for each ad, how much points or tickets you have accumulated, how many referrals you have and the cash amount you have earned from them.
5. **Message** – You can send and receive instant messages to other members of Click Vibes. Simply use their username to send the messages.
6. **Earnings Area** – This is where all ads are placed that is available to be read, surfed and clicked by you.
7. **Manage Ads** – If you have advertising credits, you can setup your website links and banners here in the different kinds of advertising and assign credits to them. The amount of credit

- you assign to each will determine how many times they will be rotated, emailed or viewed to each member.
8. **Promote** – If you chose to promote this website as an affiliate then all your promotion tools are placed here. You will see your referral link and different banners to choose from that you can use in your promotion in other programs.
 9. **Order Ledger** – This ledger keeps record of all purchases you have made to Click Vibes.com
 10. **Your Downline** – This shows your referral link and the names of all the members who have signed up below you. It will also show which website they signed up through. This is great to keep track of which external advertising programs you use are working for you.
 11. **Referral Builder** – This will list affiliate other programs. If you are not already a member in these programs, click the "join" button and you will be directed to the program (in a new window). Once you are a member, enter your referral ID in the provided box and update your information. Whenever someone clicks on the "join" button, they will be sent to your referral URL at the listed program, in turn gaining you a new referral at the other program! This is a free feature for all of our members.
 12. **Converter** – While reading or clicking ads in the program, you will be awarded points for completing certain tasks. Here you will be able to convert those points, or even your cash, to advertising credits or cash.
 13. **Membership** – This is a list of the different membership packages of Click Vibes. You can either join, change or upgrade to a new one here. Your current membership level will be displayed on the top of the page.
 14. **Contests** – Some of our contests will be placed here; you will also be shown stats regarding your position in these contests and what you will need before you qualify. Other contests are placed in the 'News' and 'Forum' section of our website.
 15. **Polls** – Here you can view any polls we are conducting that you may participate in.

Aside from surfing for advertisement credits, you can get extra and new credits from purchasing a membership, or specials (displayed on the home page). When you make these purchases, then all the different ad credits assigned to the membership or special will be credited to your account. You can also purchase individual ad types using our 'Purchase' link in the top menu. Purchase these using your PayPal, Alert Pay processors or from your account balance. All purchases are instant and credits will be applied instantly to your account.

The Vibes Forum

Our forum was designed to work in tandem with our program to better serve you and to be more accessible to you. Every member is asked to join the forum as from time to time we have contests there for you to earn more. You will also get to meet other members, learn about other programs and have access to a huge resource on the affiliate business.

It is imperative that each member sign up in the forum using the same username and password they used to sign up at Clickvibes.com.

Simple points regarding PTC programs

There are a very many different types of programs available on the internet to advertise your websites. Aside from PTC, there are also traffic engine programs where you simply purchase advertising credits for others to view your website in a surf engine or through banner ads. If you view these pages you earn advertising credits in your account. Each time you signup a referral below you, you earn advertising credits. These sites are not usually cash earning sites but simply advertising credit sites. Then there are viral lists. These programs help you to build or provide you with a huge database of prospective persons to view your websites. Again, this is not an earning site; they simply provide leads for you to promote your website.

Wherever you see the term PTC it simply means Paid To Click, or GPT means Get Paid To.

Whenever you sign up to one of these websites, you are looking to either earn money, to promote your websites, or both. It is a good idea to sign up with as many as you can as this opens you up to a wider market. It usually makes no sense advertising a website within the same website. For example, when you join Clickvibes.com, don't advertise your Clickvibes referral links here. The only persons viewing our ads are only members who have already signed up with our program.

You must be aware that there are a good many dishonest PTC websites around. They take your money, and while you may earn your advertising credits, you may never receive a cashout request. It may be hard to simply look at a website and determine which are scams as every website, whether honest or not, do have great marketing offers designed to lure you. However, there are a few organizations that assess these programs and inform you if they are scams or not. Some of these are BeenPaid.com, GPT Boycott and Talk PTC, the latter being a forum where other persons say how their programs are doing and it lists programs that are scams or not.

Do exercise some level of caution when joining earning programs and do not invest more than you can afford to lose.
